Two Breathing Techniques

1. Deep Breathing

Sit comfortably. Breathe in slowly through the nose for a count of 5, feeling your belly rise. Pause for a moment, then exhale slowly through the mouth for a count of 6. Repeat for 6-8 rounds.

Use this whenever you need to settle before a meeting, a session, or a difficult conversation.

2. Box Breathing (4-4-4-4)

Inhale for 4 seconds.

Hold for 4 seconds.

Exhale for 4 seconds.

Hold for 4 seconds.

Repeat the full cycle 4-6 times. This technique is used by clinicians, athletes, and high-performers to lower heart rate and refocus quickly.

Three Reflection Prompts

1. Where in your life do you feel the most clarity right now?

2. What is one pattern you keep repeating that no longer serves you?

3. If the next 90 days went well, what would be different?

You don't have to figure it out alone.
